# MESSAGE FROM THE CEO

**TONY  
NWAKALOR**  
MD/CEO

**I am thrilled to introduce SoundCore Energy Limited to you. We are a leading provider of innovative and sustainable power solutions with a low carbon footprint. As the CEO, I am proud to lead a team of experts who are dedicated to revolutionizing the way businesses and communities access and utilize energy in Nigeria.**

**In today's rapidly changing world, the need for reliable, cost-effective, and environmentally friendly power solutions has never been greater. At our company, we are committed to addressing these needs by offering cutting-edge technologies and sustainable energy alternatives.**

**Our focus on renewable energy sources, such as solar, wind, and hydro, allows us to reduce reliance on fossil fuels and minimize carbon emissions. By harnessing these clean energy sources, we empower our clients to make a positive impact on the environment while also benefiting from energy solutions that are efficient and economically viable.**

**By choosing SoundCore, you can trust that you are partnering with an organization that is at the forefront of the energy industry, committed to sustainability, and driven by a passion for delivering exceptional results.**

**I invite you to explore our company profile to learn more about our value proposition, range of services, our team and our partners we have the privilege of working with. Together, let's embark on a journey towards a greener and more sustainable future.**

**Thank you for considering SoundCore as your energy solutions provider. We look forward to the opportunity to serve you and contribute to your success.**

# ABOUT US

**SoundCore Energy Limited (SEL) is an independent energy company that offers innovative solutions to meet the growing energy demands in the country. We offer safe, sustainable and eco-friendly energy solutions with low carbon footprints.**

**Our energy solutions are tailored to meet the needs and specification of our client, while guaranteeing maximum value for money. SEL has the capacity to deliver modular power generation plant that can be easily assembled in any part of the country. Our specialization is on off grid power generation for captive market in private residential communities, industrial area and remote area implemented under the Rural Electrification programme.**

**Providing tomorrow's solutions today.**

**To provide reliable, sustainable, and affordable energy solutions while minimizing our impact on the environment and creating value for our stakeholders.**

# OUR CORE VALUES

The Acronym for our Core Values is **TRIPPLE - A**

**T**RANSPARENCY

**R**ESILIENCE

**I**NNOVATION

**P**ROFESSIONALISM

**P**EOPLE-ORIENTED

**L**EARNING

**E**XCELLENCE

**A**CCOUNTABILITY

# OUR SERVICES

## Electricity Generation, Transmission And Distribution

**We specialize in the generation, transmission, and distribution of electricity. Our diverse portfolio of energy sources includes coal, natural gas, and renewable energy, which allows us to provide reliable and sustainable energy solutions to homes and businesses. We leverage cutting-edge technologies and innovative practices to ensure that our energy production and delivery are safe, efficient, and environmentally responsible.**

## Development and Installation of Renewable Energy System

**At SoundCore Energy, we are committed to building a more sustainable future by developing and installing renewable energy systems. Our expertise in solar, wind, and hydro power allows us to provide innovative solutions that generate electricity without relying on fossil fuels.**

# OUR SERVICES

## ■ Energy Efficiency and Conservation Services

**we are committed to helping our customers reduce their energy consumption and save money through our energy efficiency and conservation services. We provide comprehensive energy audits, retrofitting solutions, and energy-efficient technologies that are customized to meet the unique needs of each client. Our team of experts works closely with customers to identify opportunities to improve energy efficiency and reduce costs, while minimizing their environmental impact.**

## ■ Energy Consulting and Advisory Services

**we provide energy consulting and advisory services that help our clients navigate the complex landscape of energy policy and regulation. We work with governments, businesses, and other organizations to provide expert guidance on energy strategy, planning, and implementation. Our team of experienced consultants stays up-to-date on the latest industry developments and trends, and we leverage our deep understanding of the energy market to provide customized solutions that meet our clients' unique needs. By offering these services, we are well-positioned to provide value to our clients and to drive sustainable growth for our investors.**

# OUR ENERGY SOLUTIONS

 **SOLAR POWER PLANT**

 **WIND TURBINE POWER PLANT**

 **SOLAR-WIND HYBRID POWER PLANT**

 **MINI-HYDRO POWER PLANT**

 **MODULAR GAS-POWERED GENERATION PLANT**

## **SOLAR POWER PLANT**

**Our solar power plants solution harnesses the energy from the sun and converts it into electricity through the use of photovoltaic (PV) technology. The capacity of our solar solution ranges between 1-100MW**

---

---

## **WIND TURBINE POWER PLANT**

**Our wind turbines power plants harnesses the energy from the wind to generate electricity. It involves the use of wind turbines that rotate and generate electricity in the process. Our wind turbines have a capacity of between 1-10KW**

## WIND SOLAR HYBRID POWER PLANT

This system relies on a combination of wind and solar solution to generate power. This system's design include solar panels and small wind turbines, and has the generating capacity of between 1-10KW

---

---

## MINI-HYDRO POWER PLANT

Our Mini-Hydro Plant (MHP) harnesses the energy from flowing or falling water to generate electricity on a smaller scale. It typically involves the use of a mini-hydroelectric power plant that converts the kinetic energy of water into electrical energy. The generation capacity of our MHP ranges between 1MW to 10MW

# MODULAR GAS POWER PLANT

**Our modular gas power plant is a flexible and efficient energy solution that generates electricity using natural gas or other gaseous fuels. It consists of modular units that can be easily transported and assembled, offering scalability and rapid deployment. The generation capacity for the Modular gas plants is between 1-100MW**

# OUR TEAM

Tony Nwakalor

Managing Director/CEO

Tony Nwakalor is the CEO and Founder of the SoundCore Group. He started his 7-year long professional career in Banking in the year 2002 and went on to establish the SoundCore Group as a means of pushing for the development of the African economy. Tony is a strategist with expertise in business development across the entire value chain of the solid mineral and agriculture industry

Ogechi is an ex-Big 4 professional and has spent over 7 years providing audit and strategy consulting services in the Mining sector, Financial, Energy as well as the public sector.

She has been involved in the development of various initiatives at the executive and legislative levels of governance in promoting the mining sector.

Ogechi currently heads the Strategy and Business Development unit in SoundCore Group, and working very closely with the CEO, she leads a number of SoundCore's key transactions at a national scale.

She has an MSc in Oil and Gas Management from Coventry University, UK and a BEng (Hons) in Electrical and Electronics Engineering from University of Hertfordshire, UK

General Manager  
Strategy & Business Development

Ogechi Ozigbu

Ben Nwakalor

General Manager  
Operations

Ben has a background in Banking & Finance, and Geography both from the University of Abuja. He began his professional career in 2003 when he worked at the now defunct Liberty Bank Plc.

He joined Abuja Investment Company Limited (AICL) in 2005 and rose to the position of Head of Real Estate and Infrastructure before joining SOUNDCORE GROUP. At AICL, he oversaw the implementation of multi-billion naira commercial and residential real estate projects.

Ben is a seasoned administrator with a career spanning over 2 decades. His core competences are in the area of Project Management, Public Private Partnership, Real Estate Investments and Strategy Development.

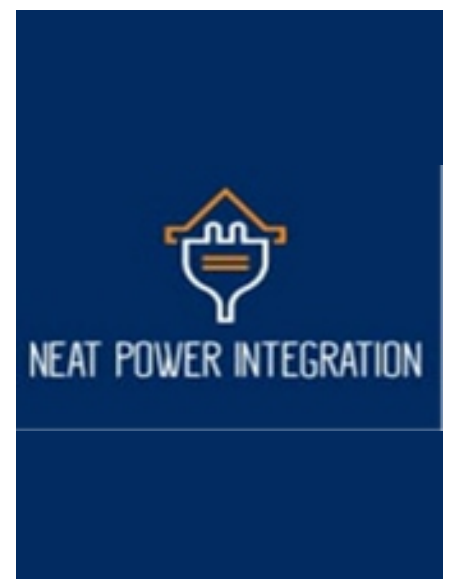

# OUR TECHNICAL PARTNERS

**Patina Energy Resource Limited (PERL) is a company with a team of skilled and experienced workforce that employs dynamic engineering and cutting edge technology to provide outstanding end-to-end power solution. PERL is a member of Patina Group with operations in petroleum, manufacturing, mining and real estate. Patina has its main Head Quarters in the United States, and operates its businesses through its subsidiaries in Nigeria, Ghana, and East Africa.**

**NEAT POWER is a firm based in Lagos, Nigeria that specializes in the development and installation of renewable energy solution. The company's offers innovation off grid solutions for rural and urban electrification project, as well as household needs.**
